

Reduces Effort
Minimises effort in direction of travel.

Avoid Wall Damage
Tough non-marking polymer cover with recessed bolt heads.

Protect Stair Nosings
Wide area prevents damage in unlikely event of contact.

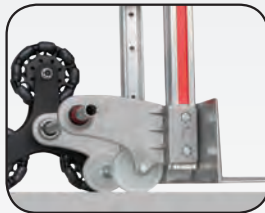

Distribute Floor Load
Using double, triple or multiple Rotacaster wheel assemblies.

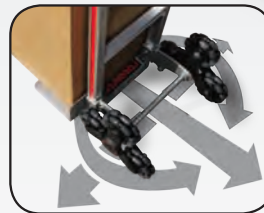

Non-Marking
Polyurethane rollers eliminate floor surface scrubbing and pivot-point carpet tears.

Stair Climber Assemblies

Easy on your back, easy on surfaces.

Easy Vertical Manoeuvring
Jockey wheels enable easy vertical positioning without floor contact.

360° Manoeuvrability
Easy direct lateral and rotational handling ability in tight situations.
