## Horizontal Roll Lifter

1/18/2005

- Dimensions subject to change
- Custom configurations available

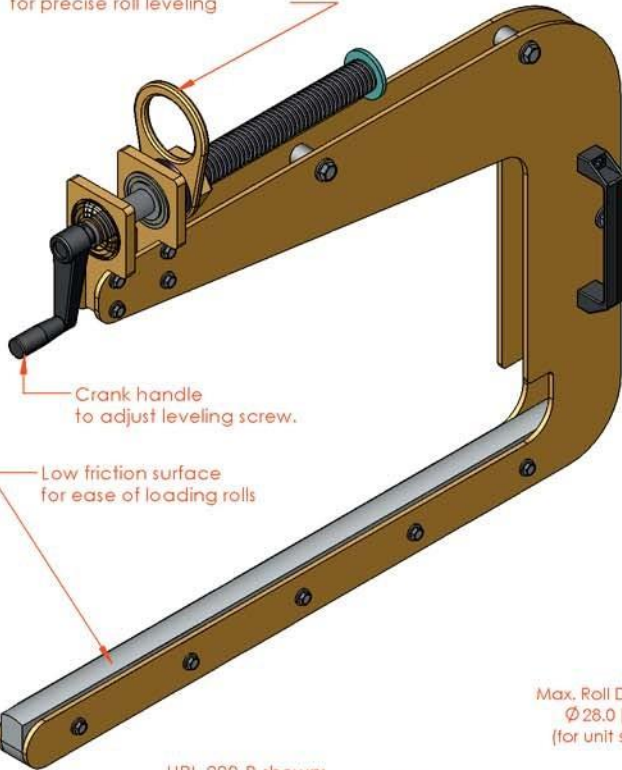

HRL-200-P models are typically made to order. The flexible design allows the unit to be optimized for specific roll sizes.

- \*Unit dimensions and weight are determined at time of order.
- \*Engineering approval drawing required prior to fabrication.

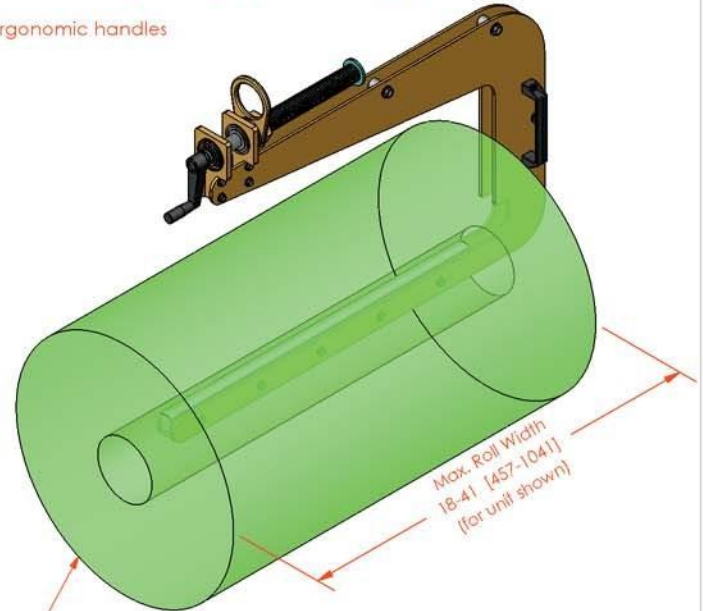

The HRL-200-P is a horizontal roll lifter with a maximum load rating of 200lb (91kg). Specific machine capacity is determined using the roll weight and dimensions for each application and may limit capacity to less than maximum load rating.
